## ABOUT THE AUTHOR

**Mike Meyers**, lovingly called the “AlphaGeek” by those who know him, is the industry’s leading authority on A+ Certification. He is the president and co-founder of Total Seminars, LLC, a provider of PC and network repair seminars, books, videos, and courseware for thousands of organizations throughout the world. Mike has been involved in the computer and network repair industry since 1977 as a technician, instructor, author, consultant, and speaker. Author of numerous popular PC books and videos, Mike is also the series editor for the highly successful Mike Meyers’ Certification Passport series, the Mike Meyers’ Computer Skills series, and the Mike Meyers’ Guide to series, all published by McGraw-Hill/Osborne.

## **CompTIA Authorized Quality Curriculum**

The logo of the CompTIA Authorized Quality Curriculum (CAQC) program and the status of this or other training material as “Authorized” under the CompTIA Authorized Quality Curriculum program signifies that, in CompTIA’s opinion, such training material covers the content of CompTIA’s related certification exam.

The contents of this training material were created for the CompTIA A+ exams covering CompTIA certification objectives that were current as of November 2006.

CompTIA has not reviewed or approved the accuracy of the contents of this training material and specifically disclaims any warranties of merchantability or fitness for a particular purpose. CompTIA makes no guarantee concerning the success of persons using any such “Authorized” or other training material in order to prepare for any CompTIA certification exam.

## **How to Become CompTIA Certified:**

This training material can help you prepare for and pass a related CompTIA certification exam or exams. In order to achieve CompTIA certification, you must register for and pass a CompTIA certification exam or exams.

In order to become CompTIA certified, you must:

1. Select a certification exam provider. For more information please visit [http://www.comptia.org/certification/general\\_information/exam\\_locations.aspx](http://www.comptia.org/certification/general_information/exam_locations.aspx)
2. Register for and schedule a time to take the CompTIA certification exam(s) at a convenient location.
3. Read and sign the Candidate Agreement, which will be presented at the time of the exam(s). The text of the Candidate Agreement can be found at [http://www.comptia.org/certification/general\\_information/candidate\\_agreement.aspx](http://www.comptia.org/certification/general_information/candidate_agreement.aspx)
4. Take and pass the CompTIA certification exam(s).

For more information about CompTIA’s certifications, such as its industry acceptance, benefits or program news, please visit [www.comptia.org/certification](http://www.comptia.org/certification).

CompTIA is a not-for-profit information technology (IT) trade association. CompTIA’s certifications are designed by subject matter experts from across the IT industry. Each CompTIA certification is vendor-neutral, covers multiple technologies and requires demonstration of skills and knowledge widely sought after by the IT industry.

To contact CompTIA with any questions or comments, please call (1) (630) 678 8300 or email [questions@comptia.org](mailto:questions@comptia.org)

I dedicate this book to Tiffany JaAda Roosa,  
the quiet eye of serenity around which the Mike vortex whirls.

—Mike Meyers

## ACKNOWLEDGMENTS

Scott Jernigan, my Editor-in-Chief, Counterstrike Foe, Master Bard, and Bon Vivant was the glue that made this product happen. There's not a word or picture I put into this book that he hasn't molded and polished into perfection.

My acquisitions editor, Tim Green, did a fabulous job keeping me motivated and excited about this project. Tim, you're the poster child for "Californians who can actually get along with loud, obnoxious Texans." Let's do another one!

My in-house Graphics Guru and Brother Tech Michael Smyer took every bizarre graphics idea I could toss at him and came back with exactly what I needed.

Cindy Clayton's title might be "Editor" but it should be "Go to Gal," as she was always there for any job we needed to get done.

Cary Dier and Brian Schwarz came in at the 11th hour to save our bacon with technical editing and copy edits. Thanks, guys!

On the McGraw-Hill side, their crew worked with the diligence of worker bees and the patience of saints to put this book together.

Laura Stone did it all this time, a true pleasure to work with as developmental editor, copy editor, frequent long-distance companion during many late nights. I could not have asked for a better editor, Laura. Thanks!

Jenni Housh offered a quiet voice and helpful spirit as Acquisitions Coordinator. I enjoyed our Monday meetings and am looking forward to the next project.

My technical editor, Ed Jennings, kept a close eye on me throughout the book and made great suggestions and corrections. Thanks for the excellent work!

To the copy editors, page proofers, and layout folks—Lisa Theobald, LeeAnn Pickrell, Andy Carroll, Susie Elkind, Paul Tyler, and the folks at Apollo Publishing—thank you! You did a marvelous job.
